Private

A private tennis lesson is the ultimate learning environment. The time is totally dedicated to the player and what they need and want out of the lesson. The professional staff at RRTC are all either USPTA or USPTR certified with many years experience. No matter what your level or your goals a private tennis lesson at RRTC will help you advance in your enjoyment of the sport.

Semi-Private

If you and a friend are of similar abilities then a semi-private tennis lesson could be the best for you. Having a friend to share the learning experience with certainly enhances the journey. And you have an understanding practice partner to help each other improve. Especially good for rookies to get started learning this great game. Grab a friend and give us a call to schedule a time.

3 & a Pro

A 3 & the Pro lesson allows the RRTC staff to play in during the lesson and become a part of the drills. This is a very effective learning environment for all levels of players when working on doubles strategy and tactics. In addition there is still the opportunity to slow down and take the time to work on stroke production and developing new shots.

4 & a Pro

The 4 & the Pro lesson is perhaps the most fun lesson format there is. Numerous different shot and play situations can be learned and refined in this lesson when all four players are of the same level. The RRTC staff is very experienced in matching the drills to the level of players so that the environment is fast-paced and challenging. Perfect for doubles partners to work on their skills together.
